SPECIAL RULES

"SAFETY FIRST"

Watch Inspectors: S. P. Anderson, Exeter; Smith Bros., Visalia.

Bulletin Board: Located at Company substation, Exeter.

Company Surgeon: Dr. C. M. White, Visalia.

MISCELLANEOUS.

S. P. Co. Rules and Regulations of the Transportation Department, effective August 1st, 1907, will govern on this line.

Rules 814 and 875 are modified to the extent that employes are required to report for duty at least five minutes before time set for departure of trains.

Power must be off while passing Circuit Breakers.

At Exeter and at Redbanks all trains will stop within fifty feet of Santa Fe tracks and will not pass over crossing without receiving proceed signal from flagman, who must precede them.

Rule 83-A will not apply at stations not telegraph offices, or where operator is not on duty.

After changing ends on Motor cars and engines Motormen will make running test of air as required by Rule 11 of Rules Governing Air Brakes, etc.

Motormen will start trains only upon receipt of proper signal. See Rule 84.

In case of any trouble with equipment on cars or locomotives, requiring fixing or adjusting before they can be returned to shop for the necessary repairs, the pantagraph must always be lowered and securely locked before any attempt is made to remedy the trouble.

Motor cars or engines will not be left standing at any point unless the pantagraph is lowered, or car or locomotive left in the care of a trainman who is competent to take care of the equipment in case of fire or other accident.

In case a pantagraph is broken and it is found necessary to make use of hand trolley pole, the following precautions **MUST** be observed:

First see that no portion of the broken pantagraph is in contact with the trolley wire; then arrange the parts of pantagraph so that no parts of it are in contact with the roof of the car or pipes leading to the pantagraph base; then securely attach wire of hand trolley pole to some metal portion of pantagraph base or parts attached thereto; then before bringing hand trolley in contact with trolley wire the operator **MUST** take such a position on top of car that he will not come in contact with any portion of broken pantagraph or wire of hand trolley pole.

SPEED RESTRICTIONS.

Passenger trains will at no time exceed 35 miles per hour.

Freight trains will at no time exceed 25 miles per hour.

Cars or engines shoving cars ahead will not exceed 15 miles per hour.

All trains will not exceed speed given below at points indicated:

Around curve to Redbanks Orchard Co.	10 miles per hour
On straight track Redbanks Orchard Co. spur	15 miles per hour
Around curve, Woodlake Junction	15 miles per hour
On Main track Citro Junc. to Terminus	15 miles per hour
Through Lemon Cove Yard	10 miles per hour
Around Yokohl curve	15 miles per hour
Around Merryman curve	10 miles per hour
Inside of City Limits, Exeter	10 miles per hour

JUNCTION SWITCHES.

Citro Junction switch will be set and locked for Woodlake main track.

Woodlake Junction switch will be set and locked for Rose St. main track.

Switch on south end of Wye at Exeter will be left set for next train to use switch.

TERMINUS BRANCH TRAINS.

No. 504 will go to Terminus for one or more passengers, and will not leave Terminus (end of track) before 9:51 a.m.

No. 510 will go to Terminus for one or more passengers, and will not leave Terminus (end of track) before 2:51 p.m.

No. 516 will go to Terminus for one or more passengers, and will not leave Terminus (end of track) before 6:26 p.m.

No. 520 will go to any point beyond Lemon Cove to discharge one or more passengers.
